Notice

Warren County Department of Fire Prevention & Building Code Enforcement will be conducting a Fire Safety/Property Maintenance Inspection in the near future.

These inspections will be conducted in all commercial property and/or businesses in the county to insure that minimum levels of safety as required by code are being complied with.

This notice is to give you an idea of what we will be looking at so that you are better prepared during this inspection. This list is not all inclusive, but generally we will be looking at:

- General housekeeping
- Storage of combustibles and flammables (interior and exterior)
- Posting of fire safety and evacuation plans where and posting of occupant loads
- Presence of and inspection documentation of appliances, alarms, extinguishers etc.
- Maintenance of and requirements for adequate means of egress including, door swing, number of exits, locks and latches, guard rails, handrails, etc.
- Storage and handling of any hazardous materials
- Fuel tanks placement and protection against damage
